

## *Investing in Integrity*

### *Highlighting the Importance and Value of Investing in Integrity Management Regardless of Economic Conditions*

#### **CALL FOR PRESENTATIONS**

The 2022 NACE International Northern Area Western Conference (NAWC) “Call for Presentations” is officially opened!

The NAWC will feature technical tracks related to **Asset Integrity Management**. These track areas are very complex and provide many challenges for the corrosion community. The diagram below shows various impacted Pipelines, Operations and Facilities infrastructure, corrosion threat types, evaluation technologies, corrosion prevention methods, risk evaluation tools and modeling techniques, including machine learning and artificial intelligence, that are related to our diverse conference tracks. Ultimately, the conference will focus on topic areas highlighting the importance and value of asset integrity management, despite the present economic conditions, to safeguard people, property and the environment.

Item	Date	Outlook Reminder
